*Many of the construction costs may vary due to the type of contractor hired for the construction.

*If franchisee wishes to use gas, more construction may be needed. However, franchiser recommends utilizing electricity for all energy needs.

Disclaimer:

All amounts noted above are estimates. Amounts may be greater or lesser than estimated depending on the facility chosen for the franchising location, the city, the county, and the state the franchise is located in, as well as the contractors chosen to complete necessary construction work. Franchiser is not held liable if the costs of opening an actual franchise are greater than is listed above – as stated, ALL COSTS ABOVE ARE ESTIMATES. Each franchise location is unique and has different needs, and the costs of opening a business are also unique to each franchisee.

We look forward to doing business with you!
